Introduction

Congratulations on the purchase of your new CHAUVET lighting accessory. We are confident you will enjoy many trouble free hours with this unit. To assist with the care and use of the product we have prepared this short guide.

Operation

This lighting accessory has been designed to function on a main power supply of either 120V~60Hz or 235V~50Hz and has been fitted with a suitable power plug for use with this voltage. Check the label on the unit and the power plug for the correct voltage.

Mount motor as described in Installation/Mounting Section of this guide.

Connect to the mains power supply and switch on. Siren will sound at 135 decibels at 1 meter.

Great for crowd motivation!

Installation/Mounting

This unit is to be mounted on a flat surface. It is recommended for your safety that the unit is properly mounted using a suitable hanging clamp and safety cable. CHAUVET offers a wide range of items, which are ideal for safe mounting.

Cleaning

The unit should be cleaned with a soft damp cloth. We recommend internal cleaning be carried out by a fully qualified technician.

Troubleshooting

- If the unit is not functional - check main power supply is 'on' and the unit is plugged into an operable outlet.
- If after trying this solution you still have a problem contact CHAUVET.

Maintenance & Servicing

Only a qualified technician should carry out work on internal parts. Removal of any covers is considered a breach of warranty and will not be covered under any such agreement unless authorized first by CHAUVET.

Caution

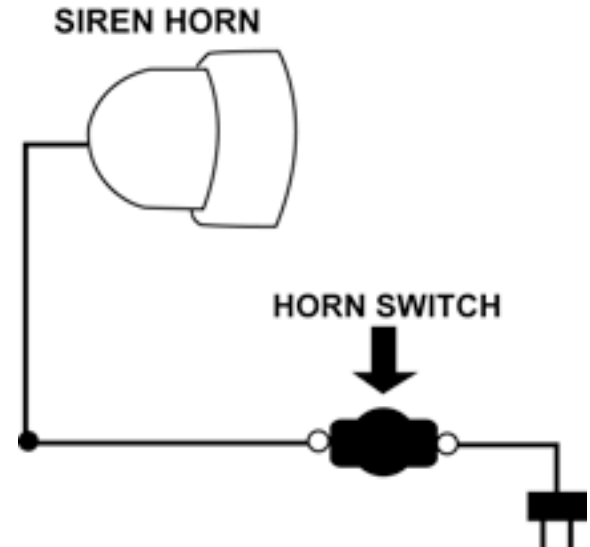

No user serviceable parts. please refer to CHAUVET for service.

Power Connections

The unit is supplied with a power plug appropriate to its voltage and destination.
